1156090	ORTHO+	SHEET	101.6cm x 30m UP EI	Roll

## Orders must be combined to be multiples of 2

Please Note: All sheet film items in this list have a minimum order quantity of one and the item will be manufactured. All roll based items on the list such as 50ft slittings need a minimum order to be placed before we can manufacture, this is due to the very high levels of waste material that could be generated if we were to accept an order of only one. Typically the minimum number of orders worldwide that we would need per roll item is very low, between 8 and 20 depending on the item, but HARMAN technology Limited must reserve the right not to manufacture against any order any roll item that fails to achieve the required minimum order number. Additionally some roll items where marked can only be manufactured in multiples of 2 or 8.

UP = Unperforated. EI = Emulsion Wound In. EO = Emulsion Wound Out. MINI = 35mm Base
